Dear Sir:-

As your officials from time to time have given us the impression that you were in no hurry for the new coining press which we are making, we have not hurried it, because the writer has been from home more than he expected this summer and autumn, and wished to give it his most careful attention in every detail.

It will not therefore be completed in the six months that was talked about at the time of the order, which will expire early in November. We write therefore to ask you if it will be satisfactory to you to have a couple of months more, or so, delay.

Yours very truly,

Ferracute Machine Co.,
